BIO PARAGRAPH

I'm Metadel Teshome, a graphic designer based in Addis Ababa with over 6 years of experience creating visuals that are both beautiful and purposeful. My work spans poster design, print materials, and visual identities — always with a focus on getting the details right.

I enjoy working closely with clients to understand what they truly want to communicate, then translating that into designs that resonate. Whether you're launching a product, promoting an event, or building a brand from scratch, I bring both creativity and care to every project.

When I'm not designing, you'll likely find me exploring local art, drawing inspiration from everyday life in Addis, or sketching ideas in a notebook.
